Professional Manufacturer of Engine Cylinder Head Gaskets and Gasket Sets

Profile

Ing Tien Enterprise Co., Ltd established in 1988, is a renowned manufacturer of gasoline/diesel engine global aftermarket sales. All of our quality products are developed in-house. Our company's major them are globally marketed under ITE own-brand.

Having several decades of professional manufacturing experience, our company is also the most has been highly recognized by international auto parts manufacturers and global trade partners.

Since its inception, our company has been concentrating on developing and making automotive control.

In addition, through years of dedication and perseverance by all our employees, we have been able to integrates our specialized techniques in the designing and tooling of molds/dies with the new concepts

Ing Tien's goal is to provide high product quality and consistent service for customers. We do it through after-sales service, modern management and professional sales and marketing policy, Ing Tien has

We continuously invest in the research and development of new techniques in order to keep up with the price and produce range.

gaskets and overhaul kits for all major car brands. Our company focuses mainly on the products include engine cylinder head gaskets and engine overhaul gasket kits. All of

recognized designer and developer of dies/molds. Our company's excellence in quality

engine gaskets by utilizing extremely critical production flow management and quality

adopt the latest and most advanced production techniques and equipment. Our firm of standardized production.

out the entire process from designing, tooling, producing to the final products. With good become a highly regarded and trusted automotive gasket manufacturer.

latest technology trend so as to create international competitiveness through quality,

World Marketing & Sales Territory

ITE gaskets have been proactive participating international trade shows and enthusiastically accepted by the market, thanks to its product quality and sales policy. Up to now, we have managed to appoint exclusive importers in the world-wide market. We believe in business growth through sincere relationship and teamwork. Cooperating closely with importers or distributors, we will design good sales and marketing strategy for each market.

HISTORY

1970 Professional designing and manufacturing of steel molds for engine overhaul sets.

1988 Formal establishment of ING-TIEN Enterprise, specializes in the design & manufacture of steel molds.

1992 Expand into cylinder head / intake / exhaust gaskets product line, using mainly stainless steel.

- 1996**
- Incorporated ING TIEN Enterprise Co.,Ltd. replaced every outdated production machine and introduced the most advanced equipment, such as 25-250 ton compressed air injectors and 500 ton hydraulic machine, etc.
 - Transformed the design, development, production, finishing and packaging of engine gasket mold into a streamlined process flow.

2001 Continued to expand production lines and packaging works for all types of engine overhaul sets.

2002 Full adoption of a 3D Computer Aided Design and Computer Aided Manufacturing program.

2003 Implemented a computerized ERP process flow to fully computerize purchasing, production, manufacturing and warehouse management, and established a congruous service system.

- 2004**
- Buy a new factory, map out the direction of the production lines.
 - Expand the production capability.
 - Accelerate to develop the new models, leading for the other competitors.

2005 Relocated to the present location as part of expansion.

2006 Certificated with ISO9001:2000.

2008 Production processes and development for HR-180 FKM Rubber Coated Steel.

2009 Development of Laser spot welding process.

2010 Development of HR369 (NBR) Rubber Coated Steel.

- 2011**
- Production lines for applying rubber coating on steel were introduced.
 - Air purifier with wet scrubber and activated carbon absorption towers were installed to improve air environment.
 - Oil removal equipment was installed to ensure stability of coating.

- 2012** • Updated to the latest version of ISO 9001:2008 certificate.
• Implemented the latest ERP management software.
• Development of environmental protection paint processes.
• Rubber coated materials matched an environmental protection standard, have the EU environmental protection certification.

- 2013** • Development of laser making process.
• Development of hardness tester process to ensure the quality and durability of the raw materials.

2015 • HR369(NBR) Rubber Coated Steel passed the test of Halogen free by SGS organization in September, 2015.

2016 Molybdenum disulfide and Rubber coated materials passed the test of REACH-SVHC standard.

- 2017** • Certificated with ISO9001:2015
• Introduced the automatic dispensing processes to improve sealing functions and efficiency.
• Molybdenum disulfide/HR369(NBR)/HR180(FKM) matched 181 REACH rules by SGS organization (MoS2/HR-369/HR-180).

2018 • Liquid rubber (FKM & NBR) and solid rubber molding process were introduced.

- 2019** • Introduction of contour measuring machine for the inspection of bead shape and comparison of pitch difference of the products.
• Introduced packaging machine to enhance protection on angular gaskets.
• Development of FKM (red) coating completed.
• Introduction of Generic Stamping Press 250T and 160T C Frame Crank Press for wider application of stamping, piercing, forming.

- 2021** • Utilized laser welding for precise assembly stamping sheet.
• Implemented on interchange fixture operation on laser welding and engraving process for elevating production efficiency.

2022 • Introduction of automatic spot welding machine for fast assembly operation, precise control and saving energy.

DEVELOPMENT & TECHNOLOGY

HR RUBBER COATED MATERIAL

This coating is manufactured based on INGTIEN's exclusive HR rubber coated material technology through years of intensive research and is ideal for applications requiring high-temperature resistance sealing conditions. Cylinder head gaskets and exhaust manifold gaskets with this coating are used in high-performance engines in automotive racing, off-road vehicles as well as motorcycles.

• IMPROVED TEMPERATURE RESISTANCE :

1. HR180: The material is the same as FKM. The heat resistance is up to 250°C (Below is the SGS test report)
2. HR369: The material is same as NBR. The heat resistance can be 150°C ~180°C

• CUSTOMIZABLE RUBBER THICKNESS :

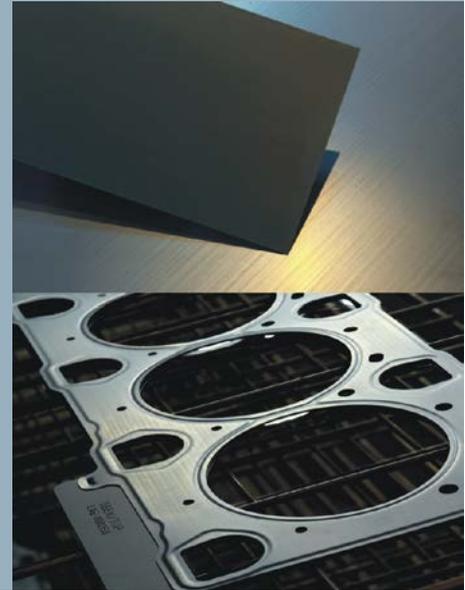

HR rubber coated material thickness can be customized based on your specific requirements. We can provide coating thickness from 0.025mm to 0.1mm.

• METAL OPTIONS :

Available in stainless steel, SPCC(Steel - Plate - ColdRolled Coil) and aluminum.

• IMPROVED SEALING :

HR rubber coated material has excellent flange conformability to surface irregularities which allows it to effectively seal uneven and stamp surfaces while minimizing flange finishing requirements.

Quality

"R&D innovations, passionate service, solid stability, and employee value" are the corporate values. In order to provide product satisfaction to our customers, we insist on perfect quality in all gaskets and We focus on R&D innovation in gasket products and we adopt the latest professional manufacturing To satisfy the needs of our customers in controlling the on-going production status of orders in real time a computerized process flow which has greatly helped us to improve our service and enhance our All this has been done to create a competitive advantage for our partners and customers. Faced with continued to expand the product lines of gaskets and overhaul kits but also streamlined the design, gaskets. These processes, in combination with our highly professional employees, have greatly contributed to Our determination is to achieve 100% customer satisfaction and continuous quest for self-advancement among domestic and international customers for service and quality. "Continuous innovation" research and development, providing excellent products and maintaining reasons why we can stand firm in the fiercely competitive gasket industry. Every employee at ITE constantly strives to provide top quality service for our customers at all times.
